SAFETY DATA SHEET

Safety Data Sheet according to GB/T 16483-2008 and GB/T 17519-2013

Date of issue/Date of revision 20 December 2018 Version 7.01

| Section 1. Identification | | |
|--|---|--|
| Product code | : 40880-BHARD | |
| Product name | : SIGMASHIELD 220/420/460/880/880GF HARDENER | |
| Product name | : SIGMASHIELD 220/420/460/880/880GF HARDENER | |
| Product type | : Liquid. | |
| Relevant identified uses of | f the substance or mixture and uses advised against | |
| Product use | : Industrial applications, Used by spraying. | |
| Use of the substance/ mixture | : Coating. | |
| Uses advised against | : Not applicable. | |
| Supplier's details | : PPG Coatings (Kunshan) Co., Ltd 53 Jinyang Road, Lujia Town, 215331 Kunshan City, Jiangsu Province, P.R. China Tel: 86 512 57678859 Fax: 86 512 57678857 | |
| Emergency telephone number (with hours of operation) | : 😡 86 532 83889090 | |

Section 2. Hazards identification

Classification of the substance or mixture according to GB 13690-2009 and GB 30000-2013

Emergency overview Liquid. Plear Characteristic. Flammable liquid and vapor. Harmful if swallowed, in contact with skin or if inhaled. Causes severe skin burns and eye damage. May cause an allergic skin reaction. May damage fertility. Suspected of causing cancer. Harmful to aquatic life with long lasting effects. Prolonged or repeated contact may dry skin and cause irritation.

IF exposed or concerned: Get medical attention. IF INHALED: Immediately call a POISON CENTER or physician. IF SWALLOWED: Immediately call a POISON CENTER or physician. IF ON SKIN (or hair): Immediately call a POISON CENTER or physician. IF ON SKIN: Call a POISON CENTER or physician if you feel unwell. If skin irritation or rash occurs: Get medical attention. IF IN EYES: Immediately call a POISON CENTER or physician.

See Section 12 for environmental precautions.

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 2. Hazards identification

| Classification of the | : FLAMMABLE LIQUIDS - Category 3 |
|--------------------------|---|
| substance or mixture | ACUTE TOXICITY (oral) - Category 4 |
| | ACUTE TOXICITY (dermal) - Category 4 |
| | ACUTE TOXICITY (inhalation) - Category 4 |
| | SKIN CORROSION/IRRITATION - Category 1C |
| | SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 1 |
| | SKIN SENSITIZATION - Category 1 |
| | CARCINOGENICITY - Category 2 |
| | TOXIC TO REPRODUCTION (Fertility) - Category 1B |
| | AQUATIC HAZARD (ACUTE) - Category 3 AQUATIC HAZARD (LONG-TERM) - Category 3 |
| | |
| | Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 33.4% |
| | (Oral), 33.4% (Dermal), 62.4% (Inhalation) |
| | Percentage of the mixture consisting of ingredient(s) of unknown hazards to the |
| | aquatic environment: 51.9% |
| GHS label elements | |
| Hazard pictograms | |
| | |
| | |
| | |
| | \mathbf{v} \mathbf{v} \mathbf{v} \mathbf{v} |
| Signal word | : Danger |
| Hazard statements | : Flammable liquid and vapor. |
| | Harmful if swallowed, in contact with skin or if inhaled. |
| | Causes severe skin burns and eye damage. |
| | May cause an allergic skin reaction. |
| | May damage fertility. |
| | Suspected of causing cancer. |
| | Harmful to aquatic life with long lasting effects. |
| Precautionary statements | <u>8</u> |
| Prevention | : Obtain special instructions before use. Do not handle until all safety precautions |
| | have been read and understood. Wear protective gloves. Wear eye or face |
| | protection. Wear protective clothing. Keep away from heat, hot surfaces, sparks, |
| | open flames and other ignition sources. No smoking. Use explosion-proof electrical, |
| | ventilating, lighting and all material-handling equipment. Use only non-sparking tools. |
| | Take precautionary measures against static discharge. Keep container tightly closed. |
| | Use only outdoors or in a well-ventilated area. Avoid release to the environment. |
| | Avoid breathing vapor. Do not eat, drink or smoke when using this product. Wash |
| | hands thoroughly after handling. Contaminated work clothing should not be allowed |
| D | out of the workplace. |
| Response | : IF exposed or concerned: Get medical attention. IF INHALED: Remove person to |
| | fresh air and keep comfortable for breathing. Immediately call a POISON CENTER |
| | or physician. IF SWALLOWED: Immediately call a POISON CENTER or physician. Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately |
| | all contaminated clothing. Rinse skin with water or shower. Wash contaminated |
| | clothing before reuse. Immediately call a POISON CENTER or physician. IF ON |
| | SKIN: Wash with plenty of soap and water. Call a POISON CENTER or physician if |
| | you feel unwell. Take off contaminated clothing and wash it before reuse. If skin |
| | irritation or rash occurs: Get medical attention. IF IN EYES: Rinse cautiously with |
| | water for several minutes. Remove contact lenses, if present and easy to do. |
| | Continue rinsing. Immediately call a POISON CENTER or physician. |
| Storage | : Store locked up. Store in a well-ventilated place. Keep cool. |
| | |
| | |

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 2. Hazards identification

| Disposal | : Dispose of contents and container in accordance with all local, regional, national and international regulations. |
|----------------------------------|--|
| Physical and chemical hazards | : Flammable liquid and vapor. |
| Health hazards | : Harmful if swallowed, in contact with skin or if inhaled. Causes severe skin burns and eye damage. Prolonged or repeated contact may dry skin and cause irritation. May cause an allergic skin reaction. May damage fertility. Suspected of causing cancer. |
| Symptoms related to the phy | vsical, chemical and toxicological characteristics |
| Eye contact | : Adverse symptoms may include the following: pain watering redness |
| Inhalation | : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |
| Skin contact | : Adverse symptoms may include the following: pain or irritation redness dryness cracking blistering may occur reduced fetal weight increase in fetal deaths skeletal malformations |
| Ingestion | : Adverse symptoms may include the following: stomach pains reduced fetal weight increase in fetal deaths skeletal malformations |
| Delayed and immediate effect | ts and also chronic effects from short and long term exposure |
| Short term exposure | |
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| Long term exposure | |
| Potential immediate | : Not available. |

| Potential delayed effects | : Not available. | |
|---------------------------|------------------|--|
| | | |

effects

Environmental hazards : Harmful to aquatic life with long lasting effects.

Other hazards which do not : Prolonged or repeated contact may dry skin and cause irritation. **result in classification**

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

CAS number/other identifiers

CAS number : Not applicable.

| Ingredient name | % | CAS number |
|--|----------|------------|
| Poxy Amine Resin | 25 - <40 | SUB123903 |
| xylene isomers mixture | 10 - <25 | 1330-20-7 |
| Propylidynetrimethanol, propoxylated, reaction products with ammonia | 10 - <25 | 39423-51-3 |
| benzyl alcohol | 10 - <25 | 100-51-6 |
| 2-methylpropan-1-ol | 1 - <10 | 78-83-1 |
| bisphenol A | 1 - <10 | 80-05-7 |
| m-phenylenebis(methylamine) | 1 - <10 | 1477-55-0 |
| ethylbenzene | 1 - <10 | 100-41-4 |
| 2,4,6-tris(dimethylaminomethyl)phenol | 1 - <10 | 90-72-2 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

SUB codes represent substances without registered CAS Numbers.

Section 4. First aid measures

Description of necessary first aid measures

| Eye contact | : Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention. |
|--------------|--|
| Inhalation | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners. |
| Ingestion | If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting. |

Most important symptoms/effects, acute and delayed

| Potential acute health effe | <u>cts</u> |
|--------------------------------|--|
| Eye contact | : Causes serious eye damage. |
| Inhalation | : Harmful if inhaled. May cause respiratory irritation. |
| Skin contact | : Causes severe burns. Harmful in contact with skin. Defatting to the skin. May cause an allergic skin reaction. |
| Ingestion | : Harmful if swallowed. |
| <u>Over-exposure signs/sym</u> | <u>otoms</u> |
| Eye contact | : Adverse symptoms may include the following: pain watering redness |

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 4. First aid measures

| Inhalation | : Adverse symptoms may include the following: reduced fetal weight |
|-----------------------------|---|
| | increase in fetal deaths |
| | skeletal malformations |
| Skin contact | Adverse symptoms may include the following: pain or irritation redness |
| | dryness |
| | cracking |
| | blistering may occur |
| | reduced fetal weight |
| | increase in fetal deaths |
| | skeletal malformations |
| Ingestion | : Adverse symptoms may include the following: |
| | stomach pains reduced fetal weight |
| | increase in fetal deaths |
| | skeletal malformations |
| | |
| Indication of immediate med | lical attention and special treatment needed, if necessary |
| Notes to physician | : In case of inhalation of decomposition products in a fire, symptoms may be delayed. |
| | The exposed person may need to be kept under medical surveillance for 48 hours. |
| Specific treatments | : No specific treatment. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that times are still present, the rescuer should wear an appropriate mask |

: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

See toxicological information (Section 11)

Extinguishing media Suitable extinguishing : Use dry chemical, CO₂, water spray (fog) or foam. media Unsuitable extinguishing : Do not use water jet. media Specific hazards arising : Flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In from the chemical a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is harmful to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. Hazardous thermal : Decomposition products may include the following materials: decomposition products carbon oxides nitrogen oxides **Special protective actions** : Promptly isolate the scene by removing all persons from the vicinity of the incident if for fire-fighters there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.

Section 5. Fire-fighting measures

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 5. Fire-fighting measures

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

| Personal precautions, protect | tive | e equipment and emergency procedures |
|--------------------------------|------|--|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment. |
| For emergency responders | - | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |
| Environmental precautions | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. |
| Methods and materials for co | nta | inment and cleaning up |
| Small spill | 1 | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and |

| Sman spin | explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
|-------------|--|
| Large spill | : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

| Precautions for safe : handling | Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any |
|------------------------------------|---|
|------------------------------------|---|

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 7. Handling and storage

other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. Empty containers retain product residue and can be hazardous. Do not reuse container.

Conditions for safe storage, including any incompatibilities Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

| Ingredient name | | Exposure limits | |
|--------------------------------------|---|---|--|
| viene isomers mixture | | GBZ 2.1 (China, 4/2007). PC-STEL: 100 mg/m ³ 15 minutes. PC-TWA: 50 mg/m ³ 8 hours. | |
| 2-methylpropan-1-ol | | ACGIH TLV (United States, 3/2018). TWA: 152 mg/m ³ 8 hours. | |
| m-phenylenebis(methylamine | Absorbed through skin. | | |
| ethylbenzene | | C: 0.1 mg/m ³ GBZ 2.1 (China, 4/2007). PC-STEL: 150 mg/m ³ 15 minutes. PC-TWA: 100 mg/m ³ 8 hours. | |
| Recommended monitoring procedures | : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to appropriate monitoring standards. Reference to national guidance documents for methods for the determination of hazardous substances will also be required. | | |
| Appropriate engineering controls | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment. | | |
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. | | |

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 8. Exposure controls/personal protection

| Individual protection measures | |
|-------------------------------------|--|
| | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye protection : Skin protection | Chemical splash goggles and face shield. |
| Hand protection : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Gloves : | nitrile neoprene |
| Body protection : | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. |
| Other skin protection : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection : | Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. |

Section 9. Physical and chemical properties

| Appearance | |
|--|---|
| Physical state | : Liquid. |
| Color | : 🕅ear |
| Odor | : Characteristic. |
| Boiling point | : >37.78°C (>100°F) |
| Flash point | : Closed cup: 41°C (105.8°F) |
| Material supports combustion. | : Yes. |
| Relative density Bulk Density (g/cm³) Solubility | 1.02 1.02 Insoluble in the following materials: cold water. |
| Viscosity | : Kinematic (40°C): >0.21 cm ² /s |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. |
| Conditions to avoid | : When exposed to high temperatures may produce hazardous decomposition products. |
| Incompatible materials | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids. |
| Hazardous decomposition products | Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides |

Section 11. Toxicological information

Information on toxicological effects

| Acute toxicity | | | | |
|--|---------------------------------|-----------------------|-------------------------|----------|
| Product/ingredient name | Result | Species | Dose | Exposure |
| 📈 lene isomers mixture | LD50 Dermal | Rabbit | >1.7 g/kg | - |

routes of exposure

Potential acute health effects

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 11. Toxicological information

| | • |
|--------------|--|
| Eye contact | : Causes serious eye damage. |
| Inhalation | : Harmful if inhaled. May cause respiratory irritation. |
| Skin contact | : Causes severe burns. Harmful in contact with skin. Defatting to the skin. May cause an allergic skin reaction. |
| Ingestion | : Harmful if swallowed. |
| | |

Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact | : Adverse symptoms may include the following: pain watering redness |
|--------------|---|
| Inhalation | : Adverse symptoms may include the following: reduced fetal weight increase in fetal deaths skeletal malformations |
| Skin contact | : Adverse symptoms may include the following: pain or irritation redness dryness cracking blistering may occur reduced fetal weight increase in fetal deaths skeletal malformations |
| Ingestion | : Adverse symptoms may include the following: stomach pains reduced fetal weight increase in fetal deaths skeletal malformations |

Delayed and immediate effects and also chronic effects from short and long term exposure

| Short term exposure | |
|--------------------------------|---|
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| Long term exposure | |
| Potential immediate effects | : Not available. |
| Potential delayed effects | : Not available. |
| Potential chronic health eff | ects |
| General | Frolonged or repeated contact can defat the skin and lead to irritation, cracking and/ or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
| Carcinogenicity | : No known significant effects or critical hazards. |
| Mutagenicity | : No known significant effects or critical hazards. |
| Teratogenicity | : No known significant effects or critical hazards. |
| Developmental effects | : No known significant effects or critical hazards. |
| Fertility effects | : May damage fertility. |

Product name SIGMASHIELD 220/420/460/880/880GF HARDENER

Section 11. Toxicological information

Numerical measures of toxicity

Acute toxicity estimates

| Route | ATE value |
|------------------------------|--------------|
| Øral | 1183.4 mg/kg |
| Dermal | 1519.2 mg/kg |
| Inhalation (gases) | 6320.7 ppm |
| Inhalation (vapors) | 19.39 mg/l |
| Inhalation (dusts and mists) | 1.709 mg/l |

Other information

There are no data available on the mixture itself. The mixture has been assessed following the conventional method of the CLP Regulation (EC) No 1272/2008 and is classified for toxicological properties accordingly. See Sections 2 and 3 for details.

Exposure to component solvent vapor concentrations in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on the kidneys, liver and central nervous system. Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin, resulting in non-allergic contact dermatitis and absorption through the skin.

If splashed in the eyes, the liquid may cause irritation and reversible damage.

Ingestion may cause nausea, diarrhea and vomiting.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

Contains Epoxy Amine Resin, 4,4'-isopropylidenediphenol, m-phenylenebis(methylamine), 2,4,6-tris (dimethylaminomethyl)phenol. May produce an allergic reaction.

Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
